EDITOR'S NOTE

Dear readers,

Dear authors and friends,

This is third issue for 2015 of the scientific Journal KSI Transaction on Knowledge Society. Since now we have been published a lot of issues in the period of the 8 consecutive years, 4 issues of the magazine per year, in March, June, September and December.

Each issue of the journal contains three types of papers. The first of them are traditional in form and demonstrate a sound theoretical and/or methodological underpinning and a clear contribution to knowledge in the field developed in the magazine. The second provide important empirical researches. We are focus on the empirical researches that explore experience in several counties. They can be an important contribution for solving major problems. The third and final type of paper provides a short contemporary and provocative "opinion piece" on an issue or synthesis of issues. Thus the magazine gives opportunity for young researchers to present their viewpoints.

All types of papers, however, are subject to the journal's double-blind review process.

This issue of the KSI Transaction on Knowledge Society that you are holding in your hands contains 8 papers, dedicated to the actual and significant scientific problems in the following fields in traditional focus of the magazine: Economics and General Management, International Relations and geopolitics, IT Management.

All papers are indexed in EBSCO, Open-J-Gate, SJIF, Directory of Open Access scholarly Resources and others, that allow for intensive dissemination of the scientific results.

International Editorial Board takes the opportunity to invite you to take part in IX International Science Conference "Knowledge Society" that will be held next year in June in Bulgaria. Invitation for the conference is published at the previous number of the magazine.

Best wishes and thank you for all contribution to the Journal KSI Transaction on Knowledge Society.

Kind regards of all our readers!

International Editorial Board

CONTENTS

EDITOR'S NOTE	3
Management	
Krasimir Enimanev , Infrastructure – an element of the social reproduction in district Rousse	5
